

Entryway Drive

Wouldn't being dropped off at the door be nice for the elderly, guests, and others? There is now a desire by many to have such a drive up to the front door. This would be especially appreciated by older members and by passengers who could be dropped off before parking in the winter. **This could be done for a cost of about \$10,000.**

Additional Special Projects

You may be thinking of other projects that would also be valuable for welcoming people to worship. If funding allows, additional deferred upkeep and needed equipment upgrades can be identified as well as desirable improvements to our facility. Donors are invited to suggest such projects on their pledge card. **Proposals will be prioritized by the church council and voters and can be done if campaign goal of \$80,000 for congregational needs and projects is reached.**

Camp Omega Adult and Family Retreat Center

Adult & Family Retreat Center
Camp Omega

Our District's Camp Omega, nearby at rural Waterville, was co-founded by Victor Roth, a former pastor of Good Shepherd. It offers a full range of programs for children, youth and families. To better serve all those in our district, a retreat center has been designed which includes modern guest rooms for groups and others for retreats, training events, reunions and other gatherings throughout the year.

Our goal is that \$20,000 would be contributed by Good Shepherd members toward this project, this would be a tithe of our overall \$200,000 goal. Pledges to Camp Omega's Capital Campaign will be made separately on a special form that will be forwarded to Camp Omega. These contributions are also to be sent directly to Camp Omega.
